

Information Security Policy Statement

Ref. ISEC013

The Policy of Logicom Solutions Ltd and its Business Consulting Services Unit is to provide business consulting services through a team of highly skilled and qualified consultants in a manner that information security standards are ensured. Based on this our company and business consulting services unit can maintain its competitiveness and safeguard sensitive information in providing IT advisory services, analytics services and information security services in customers in Cyprus and expand the overseas operations.

Information Security in this context is considered to be of the highest importance and is maintained at all times by establishing and applying strong controls and measures through a framework of policies and procedures as part of a robust Information Security Management System. The management of Logicom Solutions Ltd and the Business Consulting Services Unit is therefore, committed to providing services as per customer requirements while at the same time abiding to the relevant national legislation and regulations and relevant to the Information Security standards.

To achieve the above, Logicom Solutions Ltd and the Business Consulting Services has adopted and implemented an information security assurance management system compliant with ISO 27001.

Through the information security management system, the management continuously set information security objectives and targets, assesses the performance of the organization through information security performance indicators and reviews and revises its objectives and targets on a systematic basis, during management reviews, with the aim of continual improvement of both the information security management system and the corporate performance.

Our strengths are the highly qualified and committed personnel, our relationship with world-renowned partners we have carefully selected and represent, and our continuous contact with customers and the market in general.

25/5/2020

Chrysostomos Kridiotis
Managing Director
Logicom Solutions Ltd
